

**Shriners Hospitals  
for Children®**

**Love to the rescue.®**

## **Young athletes are not merely small adults.**

When you need an orthopaedic specialist,

**ShrinersHospitalsforChildren®- Houston** is where you'll find the region's experts in treating youth orthopaedic sports injuries.

- Prompt treatment can often prevent a minor injury from becoming worse or causing permanent damage.
  - Whether an injury is acute or due to overuse, an athlete who develops a symptom that persists or that affects athletic performance should be examined by an orthopaedic surgeon.
- Stress / Stable fractures
- Ligament injuries (ACL)
- Cartilage/Meniscus injuries
- Shoulder impingement
- Severe sprains
- Overuse injuries
- General sports trauma

Always regardless of the family's ability to pay.
